

# VJ-Advance (VJ-ADV) Articulating Video Borescopes

## 2.8mm • 3.9mm • 6.9mm VJ-ADVANCE BORESCOPE

### VERSATILE DESIGN

With insertion tube diameters of 2.8mm, 3.9mm, or 6.9mm, and lengths ranging from 1.0 to 8.0 meters, there is a VJ-ADV video borescope suitable for almost any application.

### STANDALONE PORTABILITY

No need for a separate monitor – our lightweight, compact design has a built-in, full-color LCD display. Photo and video capture is handled via the internal processor. At just 23 ounces, the VJ-ADV is a fully portable, all-in-one inspection tool.

### DIRECT RESPONSE ARTICULATION

Designed with the end-user in mind, the direct mechanical, four-way articulation requires no calibration and provides the user with responsive and immediate directional control.

### TRUE ONE HAND OPERATION

The unique pistol-grip design features 360 degree joystick articulation that is intuitive to the user, saving valuable inspection time. Simply pull the trigger for image capture. Easy to reach thumb buttons for brightness selection and video capture make performing inspections second nature.
