## Borescope News

Greetings!

ViewTech Borescopes is proud to announce the 2.8mm diameter VJ-3 articulating video borescope. Borescope users are excited about the lighting, image quality, and full-four-way joystick controlled articulation on the new 2.8mm VJ-3.

## Industry News

### Articulating Video Borescope Diameters are Shrinking while Image Quality Improves

Advancements in technology continue to enhance the capabilities of all areas of industrial quality and process control, and this is certainly the case within the various disciplines of nondestructive testing (NDT).

### What To Do About The Aviation Maintenance Technician Shortage

The aviation and airline industry as a whole has been talking about a significant shortfall globally in pilots over the next two decades, and that murmur has recently been rising closer to a shriek. The problem is that aviation maintenance technicians and mechanics are facing perhaps an even bleaker

## How to Ensure Plant Reliability and Regulatory Compliance

There's still a big takeaway from a 2008 Florida blackout, and it's not the size of the fine that followed. Although it was the largest penalty levied under the new reliability standards
